

# GigBAR Move

Ultimate gig lighting convenience, versatility and power is packed into GigBAR Move, a 5-in-1 lighting system that includes moving heads, derbies, washes, a laser and strobe effect pre-mounted on a single bar. That means a complete light show is available from this single system that includes a tripod, wireless footswitch and FREE carry bags to ensure quick setup. The moving heads have separate color and gobo wheels to enhance creative programming possibilities, plus built-in Totem Mode to keep the moving heads focused on the dance floor. Individual control of each effect ensures your show looks the way you need it to and events can be energized with dynamic effects like built-in UV LEDs to illuminate florescent objects and make them pop. Controlling GigBAR Move is also easy. Stand-alone control, DMX, wireless [IRC-6 remote](#) or wireless footswitch options are all on board. GigBAR Move is also compatible with [GigBAR 2](#) in master/slave mode for huge coverage and dynamic light shows.
